Frontend Developer | React.js | MERN Stack | JavaScript | MongoDB

PROFILE

Self-driven Full Stack Web Developer with hands-on experience in building fully responsive, real-world web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). After graduating in 2021, I took a 3-year break to support my family and focused intensively on mastering modern web technologies. During this time, I completed multiple full-stack projects, built strong problem-solving skills, and became industry-ready through practical self-learning. Now, I'm ready to join a collaborative team where I can contribute scalable code, solve real-world problems, and grow continuously as a developer.

EDUCATION

NXTWave Disruptive Technologies

Jan 2023 - Ongoing

Industry Ready Certification in Full-stack Development

BACHELOR OF SCIENCE

MALD Govt Degree College, Jogulamba Gadwal Dist.

BSc- Computer Science (MPCS) (8.26 CGPA)

BOARD OF INTERMEDIATE

Vyshnavi Junior College (MPC)

SECONDARY SCHOOL

Govt High School, Alampur (7.8 CGPA)

SKILLS

Frontend: HTML5, CSS3, Bootstrap, JavaScript, React.js

Backend: Node.js, Express.js, REST APIs, JWT

Database: MongoDB

Dev Tools: Git, GitHub, Postman, Vercel, Netlify, Render

Soft Skills: Problem Solving, Communication, Teamwork, Self-Learning

Languages: Telugu (Native), English (Intermediate)

PROJECTS

Smart Fish Delivery Web App [GitHub](#) | [Live Demo](#)

Tech Stack: React.js, Context API, Node.js, Express.js, MongoDB, Stripe, JWT Authentication

- Designed and deployed a full-stack fish delivery platform with cart, secure Stripe payments, and role-based admin control, improving UI responsiveness by 30%.
- Developed user authentication, protected routes, and admin dashboard functionality.
- Managed global state using Context API and handled secure API calls with JWT.
- Integrated MongoDB for data persistence with a responsive and clean UI.

Full-Stack Blogging Platform [GitHub](#) | [Live Demo](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, JWT, Context API

- Created a MERN Stack blog app with login, role-based access, and full CRUD operations.
- Implemented JWT for authentication and Context API for state management.
- Built secure RESTful APIs and responsive frontend using React.
- Enabled users to publish, edit, and delete blog posts with clean UI and backend integration.

Personal Portfolio Website [GitHub](#) | [Live Demo](#)

Tech Stack: React.js, Bootstrap, CSS

- Developed a clean, responsive portfolio showcasing projects, skills, and links.
- Integrated animations and smooth transitions to enhance user experience.
- Linked GitHub, LinkedIn, and live project demos for easy navigation.

Job Preference: Full-time (Remote/Onsite/Hybrid) | **Availability:** Immediate
